Rawalpindi, Pakistan

SUMMARY

Dynamic and skilled software engineering student with a strong academic background and practical experience in software development. Proficient in multiple programming languages and adept at collaborating with teams to deliver high-quality projects. Seeking opportunities to apply expertise in a professional environment and contribute to cutting-edge technology solutions.

EDUCATION

Sir Syed College

Intermediate in Computer Science
2017-2019

Foundation University

Bachelor in Software Engineering
2020-2024

SKILLS

- Java
- React.js
- React Native
- HTML5
- CSS
- JavaScript
- Redux
- FireBase
- Exceptional communication and interpersonal skills
- Detail-oriented and able to handle multiple tasks simultaneously.

CERTIFICATIONS

- Completed coursework in Frontend Web Development, including HTML, CSS, and JavaScript.
- Completed training in React.js through online platforms like Udemy or Coursera.
- Participated in workshops or bootcamps focusing on web development and React.js.
- Attended seminars or webinars on software engineering and frontend development best practices.

PROFESSIONAL EXPERIENCE

Personal Projects

- Dice Game in React.js
 - Developed a dice game using React.js, allowing users to roll two dice and display the total.
 - Implemented random number generation and state management to update the dice values.
- Personal Resume in CSS TypeScript
 - Created a personal resume website using CSS and TypeScript, showcasing skills, education, and experience.
 - Implemented TypeScript for type safety and enhanced code readability.
- Brand Page in React JavaScript
 - Designed and developed a brand page using React.js, showcasing products and brand information.
 - Implemented dynamic content rendering and navigation features.
- LinkedIn Clone in React JavaScript
 - Created a LinkedIn clone using React.js, replicating key features such as user authentication and profile management.
 - Implemented user authentication using Firebase Authentication for secure login and registration.
 - Designed and styled the user interface to resemble the LinkedIn platform.
- Pregnancy Health Monitoring App
 - AI Insights along with Alert Generation in case of emergency.
 - Personal Online Data (POD) Feature with Constant Health Monitoring.
 - Real Time Monitoring through sensors and allowing users to get smart hospital routes.

React Native Developer

InTechSol | Aug 2024 - Present

- Developed and maintained mobile applications using React Native, contributing to a significant boost in user engagement.
- Implemented complex UI components and managed state using Redux, leading to improved application performance and scalability.
- Integrated third-party APIs and services to enhance app functionality and streamline user experience.
- Collaborated with designers and backend developers to deliver features on time and within scope.
- Utilized tools like Expo, Firebase, and Axios to enhance app functionality and performance.
